

EMISSIONS-RELATED PARTS

REPORT PROBLEMS

BEFORE YOU SELL...

Have proof that the parts will not increase emissions (for example, emissions test results or an Executive Order from California Air Resources Board demonstrating no illegal emissions increase for the intended use of the part).

BEFORE YOU INSTALL...

Have proof that the vehicle will be returned to its original, stock configuration after installation; or

Have proof that the parts will not increase emissions.

If you suspect someone is manufacturing, selling or installing illegal defeat devices, or is tampering with emissions controls, tell the EPA by writing to:

tampering@epa.gov

TAMPERING POLLUTES OUR AIR

WHY IS TAMPERING ILLEGAL?

Emissions controls prevent respiratory disease, premature death, and environmental harm.

EPA enforces these prohibitions to protect public health and the environment.

DOES THIS AFFECT ME?

These prohibitions apply to anyone who services any emissions-related aspect of any EPA-certified vehicle, engine, or piece of equipment.

These prohibitions also apply to anyone who manufactures, distributes, or installs emissions-related parts.

Do not remove or alter emission controls on any EPA-certified vehicle, engine, or piece of equipment.

Emissions controls are all parts that may affect emissions, such as catalysts, filters, the electronic control unit, the fuel system, and the onboard diagnostic system.

Keep our air clean and ensure you won't be subject to penalties.
